

Day 4 journal entry

Kieran Kelly

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

Prompt option 1: *What is a topic that you found interesting this week? How do you plan to seek additional information and learn more about that topic?*

I found the future of the AI segment of this week very fascinating and eye opening. The examples our presenter showed us really made me think about the opportunities and sheer amount of possibilities that come with AI. I intend to make many questions center around AI for the rest of the presenters and meteors I will encounter in the next week and a half. Along with that I will take the time to reach out to some of the AI focused meteors throughout the rest of my time here to have deeper and more complex conversations about my interest in AI. This will aid me in my pursuit in gaining knowledge about AI.

Prompt option 2: *Discuss your interactions with various people during your internship and the value each relationship brings (peer interns, college mentor, session speakers, higher-level leaders).*

Add your response here

Prompt option 3: *What are your main takeaways from this first half of your internship and how do you plan to carry those lessons into your second week?*

Add your response here

Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Day 4 Journal Entry**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#). Use the '[Journal entry contribution cheat sheet here](#)' to assist you and ask a GitHub coach for help if you need it!
